# Saratoga Grasso Spray Catene

Saratoga Grasso Spray Catene is a high index lubricating oil based on molybdenum disulfide.

#### APPLICATION FIELDS

Saratoga Grasso Spray Catene is the product specifically designed for the long-lasting lubrication of chains subjected to extreme rotation speeds, in particular for motorcycles.

The special anti-drip additives give high adhesive power to Grasso Spray Catene, preventing the oil from being expelled due to possible high speeds of the lubricated parts. Guarantees constant and stable movements, easily penetrates the chain links and resists effectively to water, steam, lubricating emulsions, etc.

#### **APPLICATION**

- · Shake can well before use.
- · All surfaces must be clean.
- · Apply a uniform thin coat from about 30 cm distance.
- · Use the specific given straw in order to spray on delimited surfaces or barely accessible ones.

SPECIFIC DATA				
Aspect	Liquid contained in an under pressure cylinder			
Colour	Black liquid			
Smell	Peculiar			
Pour Point	-15 ° C			

## STORAGE

In unopened original packaging, between +20 and +25°C.

### **CAUTIONS**

Keep out of the reach of children.

Consult Material Safety Data Sheet for full list of hazards and the directions on the product label itself.
